EDUCATION

- **Birsa Institute of Technology, Sindri** *2023-2027*
  B.Tech, Information Technology (CGPA: 7.5) Dhanbad, India
- **JNV Basohli, Kathua** *2021-2022*
  Senior Secondary - XII (Percentage(CBSE): 82.8%) J&K. India
- **JNV Basohli, Kathua** *2019-2020*
  Secondary School - X (Percentage(CBSE): 84.2%) J&K, India

SKILLS

- **Languages:** C++, C, JavaScript (ES6+), SQL, HTML/CSS
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Tailwind CSS, Next.js, REST APIs
- **Databases & Cloud:** MongoDB, SQL, Mongoose, JWT, OAuth 2.0, WebSockets
- **Software & Tools:** Linux/Unix, Docker, Git/GitHub, Hyprland, Postman, VS Code, Figma
- **Computer Science Skills:** Data Structures & Algorithms, OOP, DBMS, Computer Networks, Machine Learning

INTERNSHIPS

- **BITSA International** *Jan 2026 – Present*
  Intern Remote
  - Designed **20+** Figma graphics, boosting brand reach by **30%** and registrations by **20%**.
  - Managed logistics for **10+** webinars with **300+** attendees, ensuring **100%** uptime with zero dropouts.
- **Indian Institute of Information Technology** *May 2025 – June 2025*
  Machine Learning Research Intern Guwahati, India
  - Analyzed deep learning architecture impacts on model convergence rates, identifying critical factors that sped up training by 25%.
  - Engineered PyTorch and Matplotlib pipelines to visualize high-dimensional loss surfaces in 2D/3D.
  - **Technologies:** Python, PyTorch, Matplotlib, Deep Learning

PROJECTS

- **CareerCopilot: AI Interview Preparation Platform**
  Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs Github | Live
  - Engineered a full-stack MERN platform for end-to-end interview preparation, integrating tools for resume analysis, JD matching, and AI-driven mock interviews.
  - Built a secure backend using JWT authentication to manage user progress across a curated bank of 240+ technical and behavioral problems with AI explanations.
- **Dotfiles: Universal Hyprland Configuration**
  Tech Stack: Bash, Linux, Hyprland, Wayland Github | Live
  - Custom Bash scripts to automate the setup of 50+ system dependencies, creating reproducible Linux environments.
  - Architected a keyboard-centric Wayland ecosystem by integrating custom Ul components (Waybar, Wofi, Kitty), replacing traditional desktop managers to streamline window management and developer workflow.

ACHIEVEMENTS

- **Finalist, HACKATRONE 2025 (HNCC BITS):** Selected among top teams in a 36-hour offline hackathon.
- **Graphic Design Certification:** Completed training at AD-VENTURE 4.0 Bootcamp (ISTE).

ACTIVITIES

- **Training and Placement Coordinator**, BIT Sindri *July 2026 - Present*
- **Treasurer**, Information Technology Society, BIT Sindri *May 2026- Present*
- **Head of Software & Autonomous Systems** , Aero and Robotics Club, BIT Sindri *June 2026 - Present*

HOBBIES & INTERESTS

- Strength Training & Calisthenics
- Basketball
